# Psy 6810: Mid-Term Self-Reflection

*Mid-Semester Checkpoint: Computational Skill Development, Assessment , and Pacing*

**Student Name:** _____ **Date:** _____

## 1. Mid-Term Progress Snapshot

**R Notebooks (1–3 Completed, 4 Due This Week):**
Notebook 1 Mark: _____ Notebook 2 Mark: _____ Notebook 3 Mark: _____
Notebooks Revised/Resubmitted so far: _____
Current status of Notebook 4: ☐ Not started ☐ In progress (drafting code) ☐ Reviewing/Polishing

**Quizzes (Quiz 1 Completed, Quiz 2 Opening Next Week):**
Quiz 1 Status: ☐ Mastered (First attempt) ☐ Mastered (After retake) ☐ Planning a retake
Preparation for Quiz 2: ☐ Actively working practice sets ☐ Reviewing lecture exercises ☐ Need extra review

**In-Class Group Exercises & Labs:**
Estimated group exercises uploaded to date: _____%
Unstructured lab engagement: ☐ Consistent ☐ Variable ☐ Falling behind

## 2. Reflection on Learning & Iteration

**Computational Workflow in R (Notebooks 1–3):** *What has been your biggest coding or debugging hurdle so far? How have instructor comments on prior notebooks shaped your workflow for Notebook 4?*

**Concept Solidification (Quiz 1 & Practice Problem Sets):** *Did your preparation strategy for Quiz 1 work as expected? How are you using the non-graded practice sets to prepare for Quiz 2 next week?*

**Collaboration & Exploration (Group Exercises & Unstructured Labs):** *How effectively are you utilizing your group during in-class exercises, and how self-directed have you been during the less-structured lab sessions?*

## 3. Trajectory, Goal Setting, & Instructor Support

**Target Final Grade:** _____
**Action plan to reach it (e.g., resubmissions, retakes, lab time):** _____

☐ **On track; no meeting needed** ☐ **Brief check-in desired** ☐ **Conference requested**

**Instructor Feedback / Notes:** _____
